

**Bioengineering Department**  
**Course Enrollment Approval Form**  
**BioE 196 Undergraduate Design Research (2-4 units)**  
**(Juniors & Seniors)**

**Enrolling Instructions:**

- ✚ Attach an **unofficial** copy of your transcript to the Course Enrollment Approval Form so that the advisor can verify your GPA. (Cal Central Academic Summary is okay).
  
- ✚ Once signed, please submit to [bioengineering-undergrad@berkeley.edu](mailto:bioengineering-undergrad@berkeley.edu) for processing. Department will enroll students in research units.

**Regulations for 196 Undergraduate Design Research (2 - 4 units)**

Course may be repeated for a maximum of 8 units. Unit variable. Prerequisites: Junior or senior status (5 or more terms in attendance), consent of instructor and faculty adviser. Supervised research. This course may satisfy the Bioengineering Design project requirement. Students with junior or senior status may pursue research under the direction of one of the members of the lab staff; but faculty member must oversee project and will be responsible for assigning final grade. A final report or presentation is required. Final deliverable decided by sponsoring faculty and student.

\_\_\_\_\_ This is the second time that I am taking BioE 196

**Policy for Non-BioE Students signing up for BioE Research:**

*Students who are in majors other than Bioengineering may sign up for BioE 99, 199 and 196, but only if they work with (and obtain a signature from) a UC Berkeley Bioengineering faculty. Non-BioE majors are ineligible to receive BioE research credit for working with faculty from other departments at UC Berkeley. They are also ineligible to receive BioE research credit for working with researchers at UCSF or LBNL. Instead, it is suggested that you sign up for research units from your home department.*
