**Regulations for 99 independent study courses.**

*No more than 4 units of courses numbering 99, 98, 197-199 may be taken in a single semester. No more than 16 units of courses numbered 99, 197, 198, 199 may be used to meet degree requirements. 99 courses are graded on a P/NP basis only. No more than 40 units of P/NP grades may be taken in total.*

*Note: Units are determined as following: for every 3 hours worked equals 1 unit.*

**Policy for Non-BioE Students signing up for BioE Research:**

*Students who are in majors other than Bioengineering may sign up for BioE 99, 199 and 196, but only if they work with (and obtain a signature from) a UC Berkeley Bioengineering faculty. Non-BioE majors are ineligible to receive BioE research credit for working with faculty from other departments at UC Berkeley. They are also ineligible to receive BioE research credit for working with researchers at UCSF or LBNL. Instead, it is suggested that you sign up for research units from your home department.*

**For office use only:**
