Note program of study must include :

45 units of engineering are required (upper & lower division); these must be chosen from the BioE & Engineering Topics Lists.

42 units of upper division technical courses (math, science, engineering) and of these 22 units must be in Bioengineering.

*Students may take either Stat 134 or IEOR 172 which is considered a stat class. Please note **IEOR 172 DOES NOT** count as an engineering elective and can not be counted towards the 45 units of engineering courses. Courses should be chosen from the approved BioE Electives List.
